TeV Particle Astrophysics 2011

Thursday 4 August 2011

Distribution of dark matter - The Svedberg (10:20 - 12:00)

time	[id] title	presenter
10:20	[460] Dark Matter distribution on large and small scales	Dr MACCIO, Andrea
10:55	[447] Dark Matter spikes constraints on WIMPS from 1 GeV-10 TeV from Fermi	SPOLYAR, douglas
11:20	[442] Dark matter annihilation signatures in stellar oscillations and nuclear clusters	CASANELLAS, Jordi
11:45	[446] Dark Matter Distribution in Dwarf Galaxies and Globular Clusters	Mr STEGER, Pascal

Distribution of dark matter - The Svedberg (13:30 - 15:00)

time	[id] title	presenter
13:30	[466] Gravitational Lenses of the Dark Universe	Dr AMARA, Adam
14:05	[445] Dark Matter distribution in the central region of the Galaxy	IOCCO, Fabio
14:30	[443] Limits on the local dark matter density	Ms GARBARI, Silvia

Distribution of dark matter - The Svedberg (15:30 - 16:30)

time	[id] title	presenter
15:30	[462] Prospects for Indirect Detection of Dark Matter in Dwarf Galaxies	Dr WALKER, Matthew
16:05	[444] Measuring the DM halo profile of dwarf spheroidal galaxies	Dr PENARRUBIA, Jorge
