

# Cosmic ray backgrounds in dark matter searches

## Wednesday, 27 January 2010

### Dark Matter sources - FP41 (10:00 - 12:40)

time	[id] title	presenter
10:00	[275] Donato - e+/e- and pbar dark matter interpretation (40' + 10')	
10:50	[278] Ullio - Multimessengers and DM interpretation (40' + 10')	
11:40	Coffee break	
12:10	[280] Gaggero - Possible Interpretations of the electron+positron spectrum measured by Fermi-LAT (20' + 10')	

### Dark Matter sources - FP41 (14:10 - 17:20)

time	[id] title	presenter
14:10	[276] Gondolo - Axions (30' + 10')	
14:50	[294] de Angelis - MAGIC constraints on axions (20' + 10')	
15:20	[290] Cuoco - Multiwavelength Dark Matter constraints (20' + 10')	
15:50	Coffee break	
16:20	[291] Discussion (Donato, Ullio, Gondolo)
