

TeV Particle Astrophysics 2011

Friday, 5 August 2011

Particle physics - The Svedberg (14:00 - 15:30)

time	[id] title	presenter
14:00	[418] Constraints on the dark matter properties from radiative decays	IBARRA, Alejandro
14:20	[415] The GERDA Experiment: A Search for Neutrinoless Double Beta Decay	Ms FROBORG, Francis
14:40	[414] keV sterile neutrino Dark Matter as alternative to the TeV scale	Dr MERLE, Alexander
15:00	[417] Number-theory dark matter	Prof. TAKAHASHI, Fuminobu

Particle physics - The Svedberg (16:00 - 18:00)

time	[id] title	presenter
16:00	[421] Updated CMB constraints on DM annihilation cross-section	IOCCO, Fabio
16:20	[428] Dark Forces at the Tevatron	BUCKLEY, Matthew
