

TeV Particle Astrophysics 2011

Tuesday, 2 August 2011

Neutrinos - astrophysics and dark matter - The Svedberg (14:00 - 15:30)

time	[id] title	presenter
14:00	[403] UHE neutrinos from GRB and related sources	Prof. MESZAROS, Peter
14:30	[395] Search for neutrino sources with the IceCube Neutrino Observatory.	AGUILAR SÁNCHEZ, Juan Antonio
14:55	[398] Status of the ANTARES Neutrino Telescope	Dr ESCOFFIER, Stephanie
15:15	[402] Search for point sources with the ANTARES neutrino telescope	Mr JUAN PABLO, Gómez González

Neutrinos - astrophysics and dark matter - The Svedberg (16:00 - 19:00)

time	[id] title	presenter
16:00	[394] Dark matter searches with IceCube	DE LOS HEROS, Carlos
16:20	[396] Direct supersymmetric analyses with IceCube	SCOTT, Pat
16:40	[397] Search for dark matter with the ANTARES neutrino telescope	Dr ZORNOZA, Juan de Dios
17:00	[399] On the cosmogenic neutrino flux	Prof. SARKAR, Subir
17:30	[400] Neutrino Astrophysics with the Pierre Auger Observatory	Mr NAVARRO, Jose Luis
17:55	[401] Multi-Messenger Astrophysics with the IceCube Neutrino Observatory	FINLEY, Chad
