

Midterm meeting

Friday afternoon, September 14, there is a mid-term meeting of the project "IRSES SPINMET", in which the participants of this network will make presentations. The meeting, that will take place at Nordita, is open for all the participants of the Nordita/Spin 2012 meeting:

13.00- 14.00, A. Khaetskii, Unitarity of scattering and spin accumulation in ballistic and quasi-ballistic regimes

14.00- 15.00 N.T. Bagraev, Fractional quantum conductance and magnetic resonance phenomena in silicon nanostructures

15.00-15.15 Coffee break

15.15-16.00 I. Levkivskyi, Dephasing in electronic Mach-Zehnder interferometers at filling factor 2

16.00- 16.45 G. Pavlovic, Mesoscopic optical Berry phase interferometer

16.45- 17.30 O. Kyriienko, Spin-orbit coupled cold exciton condensates
