

Clusters of Galaxies as Cosmic Laboratories

Wednesday, 14 September 2011

Cluster Dynamics I - FD51 (09:00 - 12:30)

time	[id] title	presenter
09:00	[266] Blazar Heating - The Rosetta Stone for Structure Formation?	PFROMMER, Christoph
09:45	[267] The AGN-Galaxy Connection: The interaction between supermassive black holes and their host galaxies	FORMAN, William
10:30	Coffee Break	
11:00	[268] The Outer Limits of Galaxy Clusters: Observations to the Virial Radius with Suzaku	MILLER, Eric
11:45	[269] Shocks, Cold Fronts and Sloshing: The Growth of Clusters of Galaxies through Mergers	JONES, Christine
