

# TOOLS 2012

## Thursday 21 June 2012

### Particle physics - phenomenology and searches for new physics - Oskar Klein Auditorium (11:00 - 12:15)

-Conveners: Abram Krislock

time	[id] title	presenter
11:00	[275] MadAnalysis 5, a user-friendly framework for collider phenomenology	Mr SERRET, Guillaume
11:45	[271] Global Charge Asymmetry: a New Method for Indirect Mass Constraints at the LHC	Dr MUANZA, Steve

### Particle physics - phenomenology and searches for new physics - Oskar Klein Auditorium (14:35 - 15:05)

time	[id] title	presenter
14:35	[270] Framework for precision calculations in the NMSSM	LISA, Zeune
