

# Statistical Mechanics of Biological Cooperativity

## Saturday, 25 May 2013

### Saturday morning (09:00 - 12:15)

time	[id] title	presenter
09:00	[259] Dislocation Mediated Elongation of Bacteria	Prof. NELSON, David R.
09:45	[267] Diffusion of public goods in bacterial colonies, and its impact on cooperation	Prof. MORA, Thierry
10:15	Coffee & tea	
10:45	[268] Quantifying contributions of mutations and homologous recombination to E. coli genomic diversity	Prof. MASLOV, Sergei
11:30	[269] Pareto optimality in evolution and the geometry of phenotype space	Prof. URI, Alon
