

VLVnT13 - Very Large Volume Neutrino Telescope Workshop 2013

Monday 5 August 2013

Physics, Reconstruction, and Software I - FB53 (14:00 - 15:30)

time	[id] title	presenter
14:00	[314] IceVeto: Extended PeV neutrino astronomy in the Southern Hemisphere with IceCube.	Dr AUFFENBERG, Jan
14:20	[322] Sensitivity of the KM3NeT detector to a neutrino flux from the Fermi Bubbles.	Dr PIATTELLI, Paolo
14:40	[323] Sensitivity of the KM3NeT detector to neutrino fluxes from Galactic point-like sources	Prof. KOOIJMAN, Paul
15:00	[347] Detection of Extended Galactic Sources with an Underwater Neutrino Telescope	Dr TSIRIGOTIS, Antonios Dr LENIS, Dimitrios
