

Statistical Mechanics of Distributed Information Systems

Tuesday, July 17, 2007

Overlays, analysis and properties (3:00 PM - 7:00 PM)

time	[id] title	presenter
3:00 PM	[16] Integrating geographical, technological and economical factors in a model of Internet growth	Dr HOLME, Petter
4:00 PM	break	
4:30 PM	[15] Interacting traders with public and private information (statistical mechanics perspective)	Prof. DE MARTINO, Andrea
5:30 PM	break	
6:00 PM	[250] Criticality and Phase Transitions in Diversity Colouring	SAAD, David
6:30 PM	[264] Probability Collectives: A practical information theoretic prescriptive on bounded rational game theory and statistical physics	Prof. EL-BELTAGY, Mohammed
