

IceCube Deep Core Workshop 2008

Monday, 17 March 2008 - Wednesday, 19 March 2008

AlbaNova

Scientific Programme

Day I: Morning Session

DOM Production Status Report
Other Hardware Issues

Day I: Afternoon Session I

Candidate Deep Core Geometry Layouts
Deep Core Simulation Studies (veto rate etc...)

Day I: Afternoon Session II

Special Calibration for Deep Core

Day 2: Morning Session I

Triggers for Low E Physics

Day 2: Morning Session II

Deep Core Science Goals I:
1. Solar WIMPs
2. Earth WIMPs
3. Galactic Center/ Black Hole WIMPs

Day 2: Afternoon Session I

Deep Core Science Goals II:
1. Atmospheric Neutrino Oscillation

Day 2: Afternoon Session II

Deep Core Science Goals III:
1. Galactic Center
2. Southern Sky Map

Day 3: Morning Session I

Workshop Summary
To Do Lists

Day 3: Morning Session II

Real Work Together: coding etc...

Day 3: Afternoon Session I

TBD
