

# IRIS-6: The Chromosphere

## Thursday, 23 June 2016

### Session 8 - FR4 (14:15 - 17:05)

time	[id] title	presenter
14:15	[340] MHD waves in the solar chromosphere (Invited)	VERTH, Gary
14:45	[290] Chromospheric heating due to transverse waves in small magnetic elements	JAFARZADEH, Shahin
15:05	Coffee break + poster viewing	
16:00	[334] Generation of upward Alfvénic waves by the chromospheric shock waves	SHODA, Munehito
16:20	[258] Simulations of Alfvén wave driving of the solar chromosphere - efficient heating and spicule launching.	ARBBER, Tony
16:40	[332] Wave heating of the partially-ionised atmosphere	SHELYAG, Sergiy
17:00	Concluding remarks
