Physics of Relativistic Flows

Wednesday, 27 May 2009

Supercritical phenomena in relativistic flows (10:00 - 13:30)

time	[id] title	presenter
10:00	[282] Supercritical pile GRB model	MASTICHIADIS, Apostolos
10:30	[283] On the role of neutral particles in generation of cosmic rays	DERISHEV, Evgeny
11:00	coffee break	
11:30	[284] Photon breeding in relativistic flows	STERN, Boris
12:00	[285] Astrophysical implications of photon breeding mechanism	POUTANEN, Juri
12:30	[290] Automatic quenching of high energy gamma--ray sources by synchrotron photons	STAWARZ, Lukasz
12:45	[286] discussion
