

Physics of Relativistic Flows

Wednesday, May 27, 2009

Supercritical phenomena in relativistic flows (10:00 AM - 1:30 PM)

time	[id] title	presenter
10:00 AM	[282] Supercritical pile GRB model	MASTICHIADIS, Apostolos
10:30 AM	[283] On the role of neutral particles in generation of cosmic rays	DERISHEV, Evgeny
11:00 AM	coffee break	
11:30 AM	[284] Photon breeding in relativistic flows	STERN, Boris
12:00 PM	[285] Astrophysical implications of photon breeding mechanism	POUTANEN, Juri
12:30 PM	[290] Automatic quenching of high energy gamma--ray sources by synchrotron photons	STAWARZ, Lukasz
12:45 PM	[286] discussion
