

SMART-X Stockholm Network Symposium

Wednesday 7 April 2021 - Friday 9 April 2021

Scientific Programme

ESR Poster Session

Presentations of the ESR's projects. Each presenter will have their own Zoom breakout room. Instead of a traditional poster we recommend that you prepare a few slides that work well for screen sharing.

This is also a good opportunity to get in touch in the partners for the secondments. We encourage all PIs that they visit the ESRs, who they will host in the future, at their poster.
