

Panel discussion with 2022 Nobel Laureates in Physics:

Our roads to the Nobel Prize

Three recipients of the Nobel Prize in Physics for the year **2022**, professors **Alain Aspect**, **John F. Clauser**, and **Anton Zeilinger** will share their experiences of being a young and aspiring physicist.

How they oriented themselves in the diverse landscape of physics research, what important decisions they made, and how they today view the future of their own fields of research.
