

Cosmic Dawn at High Latitudes Conference

Monday 24 June 2024

Session 1: Session 1 - Beijer auditorium (09:30 - 12:30)

-Conveners: Andrei Mesinger

time	[id] title	presenter
09:30	[143] Charting the progress of reionization with quasars and galaxies	KEATING, Laura
10:00	[89] Simulating Cosmic Reionization on all scales	ILIEV, Ilian
10:15	[25] Cosmic Dawn III: balancing ionizing photon production and the impact of dust during the Epoch of Reionization	OCVIRK, Pierre
10:30	[136] A semi-analytic model for Pop III star formation	HEGDE, Sahil
11:00	Coffee break	
11:30	[86] COLDSim: A new look at H α , H I and H II in cosmological simulations.	CASAVECCHIA, Benedetta
11:45	[47] The challenging and promising path towards accurate predictions of the EoR clustering signal	SCHNEIDER, Aurel
12:00	[106] First stars and binaries	FIALKOV, Anastasia
12:15	[77] Exploring Beyond Standard Cosmological Models during the Epoch of Reionization	GIRI, Sambit Kumar
